

Kardia Band

Turn Apple Watch into an ECG.

Kardia Band: Great for your heart. Great for your bottom line.

Kardia Band is the hot new watch strap that turns an Apple Watch into a wearable ECG for anytime, anywhere results. It's the ultimate addition to your suite of Apple Watch offerings—and already in high demand.

- As seen on The Times, The Guardian, Daily Mail, Pharmazeutische Zeitung and Der Spiegel
- Breakthrough innovation: smallest, most personal ECG in history
- Integrates beautifully with the existing suite of Apple products
- Limited edition—sleek, convenient, discreet
- Next generation of Kardia Mobile, selected by NHS Innovation Accelerator

Perfect for heart-conscious Apple users.

Kardia Band turns an Apple Watch into the most convenient device for managing heart care. Users can track changes over time and share ECG results with their doctor. Ideal for:

- elite athletes
- heart patients
- family of heart patients
- physicians
- anyone who's heart-conscious and wants medical-grade ECG results

Be the first to offer Kardia Band.

This is your exclusive opportunity to reserve your stock today. A limited quantity will be available to ship on 2 November 2016.

Details & Pricing

Using Kardia Band is easy.

①

Download the Kardia app from the App Store.

②

“Show App on Apple Watch” for Kardia from iPhone.

③

If you're a new user, create an account in the Kardia app from iPhone.

④

Open the Kardia app on the Apple Watch. Follow instructions to record an ECG.

Just press your thumb to the electrode and get medical-grade results in 30 seconds. It's as natural as taking your pulse—and so discreet, nobody else will know you're taking an ECG.

Packaging is approved by Apple HQ.

- Dimensions: 177.80mm (l) x 79.38mm (w) x 39.68mm (h)
- Flap opens to reveal Kardia Band
- Benefits statements and quick-start instructions on inside flap in 6 languages: English, French, Dutch, German, Italian and Spanish
- Shipment box specs can be provided

Suggested retail for Kardia Band is 229 EUR (includes VAT).
